Introduction

School counseling is not only important but it is urgently required in all types of schools in India, because it will be an external source of support for addressing various problems of school going children and adolescent. Professional counselor works in govt. and private schools to facilitate student achievement, improve student behavior and attendance and to support those students who are experiencing personal, academic, mental health, behavioral or physical challenges. School counselor helps the students to resolve their personal or intra-personal problems. School counselors not only help the students but they also provide support to school staff, administrators and parents by suggesting them intervention strategies and techniques and programmes to improve mental health and school safety. The school counselors are expected to take on leadership roles within school system, to work from strength based perspective to develop and manage comprehensive school counseling programmes.
