Activity -01

Activity Name: HIV/AIDS/TB/STI- Youth Awareness

Purpose: Creating awareness about HIV in the community.

Event Venue: Manavlok College of Social Work Ambajogai Dist. Beed

Beneficiary: Persons between the ages of 18 and 40.

Resource Person: Mr. Dhanaraj Pawar, Mr. Pradip Jire, Mr. Rajnarayan Gosami
Counselor and Technician SRTR Medical College Ambajogai

Date: 26-08-2018

Important Message:

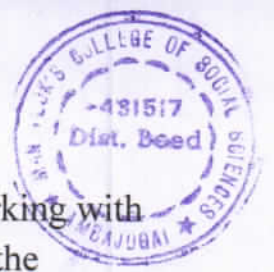

On 26.08.2018, in association with Manavlok Social Work College, Ambajogai and Integrated Counseling and Testing Center, Swami Ramanand's Rural Medical College and Hospital, on the occasion of International Youth Fortnight, H. i. Key AIDS awareness program was conducted. The chief guide for this program was Mr. Dhanraj Pawar while the president of the program was the principal of the college Dr. Prakash Jadhav was present.

In his instructive speech, Mr. Dhanraj Pawar, if blood test is done for boys and girls, the next generation will be born 100% AIDS free and healthy and a new message will be sent to the world. Because if even one of the two gets infected with AIDS, then the whole family will not get infected with it. Before getting married, just as we look at the marriage chart, look at the behavior of the son and daughter, look at the house property and also check the blood report, so that one does not suffer the consequences of one's mistake on the other. Also, Mr. Pawar focused on pre-marriage blood test Mr. Dhanraj Pawar further guided HIV. In-depth guidance on ways and treatment of Sansags, misconceptions. At this time, he is the society HIV. He also called for providing social and financial support to the affected people as well as psychological support.

College Principal Dr. Prakash Jadhav stated that there is a need to remove the misunderstandings about AIDS disease in the society and the child's attitude towards the affected person and expressed the opinion that social work students should bring about that change.

Ambajogai Dist. Beed 431517

Prof. Dr. Rama Pande : This should be the role of social workers by working with the affected people and giving them psychological support by removing the misunderstandings created about them and pointing out how they need to lead a normal life. She said that pre-marital counseling should be followed by blood tests. The doubts raised by the students were cleared during the program. Mrs. Sukeshoni Gandle, Ashok Kasbe and Dhanraj Pawar cleared the doubts.

Introductory speech by Dr. Hanumant Salunke. All the teachers and students of the college were present for this program.

Dr. Hanumant Salunke welcoming all the participants in one day workshop on HIV AIDS

All the students of M.S.W. I and II year participating in the programme.

Important Message:

1. AIDS is an incurable but preventable disease. HIV, the virus that causes AIDS, is transmitted through unprotected sex (sex without a condom), contaminated blood transfusions, using contaminated needles and syringes (which are often used to inject drugs), and from an infected pregnant mother to her child during pregnancy, delivery, or breastfeeding.
2. All people, including children, are at risk of HIV/AIDS. Everyone needs to be informed and educated about the disease and access of condoms should be facilitated.
3. A person who suspects HIV/AIDS infection can go to a health worker or an HIV/AIDS center to receive help and counseling.

Evaluation:

Patient and students of MSW, village youth groups and women attended the public awareness program about HIV.

Ambajogai Dist. Beed 431517

Introduction

With the global initiative of eradication of polio in 1988 following World Health Assembly resolution in 1988, Pulse Polio Immunization programme was launched in India in 1995. Children in the age group of 0-5 years administered polio drops during National and Sub-national immunization rounds (in high risk areas) every year. About 172 million children are immunized during each National Immunization Day (NID).

History

In India, vaccination against polio started in 1978 with Expanded Programmed on Immunization (EPI). By 1984, it covered around 60% of infants, giving three doses of ODP to each. In 1985, the Universal Immunization Program (UIP) was launched to cover all the districts of the country. UIP became a part of child survival and safe motherhood program (CSSM) in 1992 and Reproductive and Child Health Program (RCH) in 2000. This program led to a significant increase in coverage, up to 95%. The number of reported cases of polio also declined from 28 during 1987 to 65 in 2000.

In 1995, following the Global Polio Eradication Initiative of the World Health Organization (1988), India launched Pulse Polio immunization program with Universal Immunization Program which aimed at 100% coverage.

Objective:

The Pulse Polio Initiative was started with an objective of achieving hundred per cent coverage under Oral Polio Vaccine. It

Coordinator IQAC
Manavlok's College of Social Work
Ambajogai Dist. Beed -431517

Principal
Manavlok's College of Social Work
Ambajogai Dist. Beed 431517

aimed to immunize children through improved social mobilization plan mop-up operations in areas where poliovirus has almost disappeared and maintain high level of morale among the public.

Participation of Students:

Manavloks College of Social Work Ambajogai Dist Beed has participated in National Pulse Polio Programmers during 2017-2018. The Students were placed in different booth in Ambajogai city in Two Shifts morning Session 8 am to 2 pm and 2 pm to 8 pm. The Students Participated in National programmers on Dt. 28/01/2018 and second campaign on 11/03/2018 under the Guidance of Assistant Professor Dr. Hanumant Salunke. Training was given to the Students by Civil Hospital Staff on 09/03/2018.

The Students of MSW I & II year are involved in this Campaign to understand their importance of polio Vaccination to aware the people about polio dose and to give polio dose 0 to 5 year children by doing all this helping the country to become polio free. The Training was given to all students before the actual programme.

Pulse Polio Campaign 2020

Polio is a disease caused by a virus. Polio is a disease that affects children under the age of five. This is a viral disease that is widely found in the poor countries of the world. The virus of this viral disease is found only in humans. This effect is mostly seen in children and young children. Polio is a disease vaccine that is distributed throughout the world through the World Health Organization.

National Pulse Polio Vaccination was conducted on 19th January

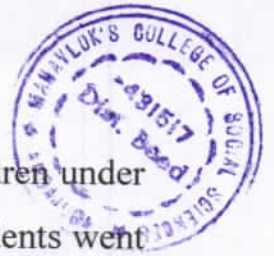

2020 in association with Public Health Department Government of Maharashtra and District Integrated Health Family Welfare Society Beed. Students of Manavlok Social Work College participated in this vaccination. Vaccination centers were set up to give polio dose at various places like bus stand,

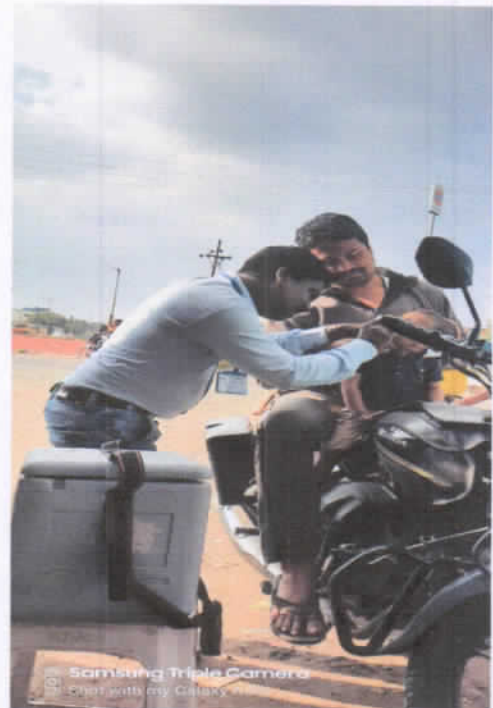

Shivaji Chowk, Municipal Auto Point, Yashwantrao Chavan Chowk, Yogeshwari Temple, Panchayat Samiti Auto Point, Bhagwan Baba Chowk in Ambajogai town. A total of 38 students of the college had participated in all these vaccination

centers. A total of 38 students administered polio dose to 735 small children under these seven vaccination centers from 7 am to 8 pm. At this time, the students went to the locality and made the citizens aware of the importance of polio dose to immunize their children. Those who live in the area, those who live in Firisti Vasti and those who are in other places as well as those who are going to other villages and those who are coming from the village in the bus stand were policed. Also, polio vaccine was given to the children of the village and the city who were coming and going under the auto points which are located in different squares. During the day-long campaign, Taluka Medical Officer, Health Department staff, health workers, nurses, college principals, professors visited the vaccination center from time to time and guided the students by inspecting their work. In all these places other business people helped to seat the students and their cooperation was invaluable.

Since Sunday 19th January 2020 was a polio vaccination drive, the students came to the college on 18th January 2020 and were given morning training by the Health Officer and their staff. Children were trained on how to administer the dose. Also, health officers and staff gave instructions to the students to attend the respective vaccination center in the morning. Dr. Hanumant Salunke observed the work.

Pulse Polio Campaign 2021

Polio is a paralysis caused by a virus. Polio affects children under five years of age. It is a viral disease that is found in large numbers in the poorest countries of the world. The virus is only found in humans. This effect is more common in infants and young children. Polio is a disease vaccine supplied worldwide through the World Health Organization.

National Pulse Polio Vaccination was conducted on 19th January 2020 by the Department of Public Health, Government of Maharashtra and District Integrated Health Family Welfare Society, Beed. Students of Manavlok Social Work College participated in this vaccination.

Trained the children on how to administer the dose. Health officials and staff also instructed the students to be present at the respective vaccination centers in the morning. Dr. Hanumant Salunke of the College acted as the Coordinator of Polio Vaccination Campaign 2020.
